

M6 Screw Thread receiver Add-on Fixing System

Artnovion's proprietary frame is standardly equipped with four M6 Screw Thread receivers. For customers intending to take their creativity to the next level, these additional thread receivers allow for 90-degree rotation offering the possibility to create new patterns with panels such as Siena, Verona, Azteka and Orion. This Add-on comprises an M6 screw thread receiver, ensuring compatibility with all M6 screw-compatible fixing systems.
