

Luxor Print Cloud - Line

Luxor Print Cloud is defined by Artnovion's proprietary aluminium frame with a 45-degree profile. Luxor Print Cloud combines an inclined aluminium structure with a recycled PET absorber core and a printed fabric front. The angled profile remains hidden beneath the fabric, creating a more uniform appearance.

Luxor Print Cloud is designed to improve acoustics in large, open spaces where wall treatment is limited. Ideal for environments such as open offices and restaurants, it treats ceiling reflections effectively. The aluminium structure allows for easy installation, resists temperature and humidity changes, and supports large panel sizes.

Features

Type:
Absorber

Absorption Range:
350 Hz to 5000 Hz

Acoustic Class:
B | (aw) = 0.85

Purpose

- RT reduction
- Flutter echo control
- Improving speech intelligibility
- Effective broadband absorption

Recommended for

- Office Meeting Room
- Conference Room
- Open Workspace
- Lobbies

Performance

This product is available in the following Fire Rate:
FR | Fire Rated

PRODUCT COMPOSITION:

- Luxor Print Cloud - Line | Fire Retardant Acoustic Fabric (FR)
- Fire Retardant Acoustic Fabric
- Aluminium structural frame
- Sound PET acoustic core - Euro Class B

Dimensions:

- Luxor Print Cloud - Line | 1320x1785x60mm
