

Norma K 24

Norma K is built to deliver reliable mid-frequency absorption, with a uniform perforation pattern of 16mm holes that maintains its clean aesthetic even when covering large spaces. This feature makes it a great solution for environments where speech clarity is essential, such as offices, auditoriums, and restaurants. The seamless design ensures that the perforation pattern remains consistent across extended areas, offering both practicality and visual harmony. Available in a selection of wood and lacquered finishes, Norma K balances style and performance. Installation is made simple with a direct screw system, ensuring fast setup and hassle-free maintenance.
