Technical Information

Features

Type: Absorber
Absorption range: 160Hz to 4000 Hz

Acoustic Class: B | (α_w) = 0,65

Recycled PET absorption - Class 1 product according to the OEKO-TEX® Standard 100.

This product is available in the following Fire Rates:

- FG | Furniture Grade
- FR | Fire Rated

Product Composition

- Tejo | Suede Fabric Finishes (FG)
 - Suede acoustic fabric
 - Sound PET acoustic core - Euro Class B

- Tejo | Felted Fabric Finishes (FR)
 - Felted acoustic fabric
 - Sound PET acoustic core - Euro Class B

Product Dimensions

Tejo - 595x595x77mm

Dimensions:

- FG - SF | 595x595x77mm | 1,08 Kg
- FR - TT | 595x595x77mm | 1,08 Kg

Tejo is made from recycled PET and carefully wrapped in a recycled PET fabric. The moulding process takes inspiration from traditional furniture making techniques, allowing us to carefully fashion the product without the use of any additional chemical adhesives or high temperature presses - proudly making an ecologically sustainable product, made entirely from recycled waste.

Tejo is inspired from our flagship Douro diffuser, creating acoustic performance in the minimum thickness possible. Tejo creates district air cavities behind the panel, boosting the performance of the sleek acoustic core.

Tejo is a high frequency absorber, designed for spaces where speech intelligibility and noise control are critical factors - from offices and conference rooms, to schools, hotels or restaurants.

Tejo is available in a range of select fabrics and finishes, and is easily adhered to any surface.

The most common ocean pollution - PET plastic bottles - can be recycled into a hard-wiring flexible acoustic metamaterial with exceptional performance.

Class 1 product according OEKO-TEX® Standard 100.

Product finishes

(FG - SF) Suede Fabric Finishes

(FR - TT) Felted Fabric Finishes

Purpose

- Noise Control
- RT reduction
- Improving speech intelligibility

Recommended for

- Office
- Meeting room
- Conference room
- Open workspace
- Coffee shop
- Restaurant
