

Chroma Print Plus

Chroma Print is a customizable fabric absorber, that allows you to reproduce quality artwork in any size.

Chroma Print is made with tensioned high-resolution printed fabric stretched over an aluminium frame that conceals the products' acoustic core and provides an all-round perfect finish.

This panel is sent flat pack, and the fabric is installed with an easy push-in system, that besides simplifying the installation procedure, also allows you to easily swap the fabric if you want a change of scenery.
