Sparta RCT - Speaker Cover

Sparta is an acoustic panel with a simple design, that provides a broadband absorption range.
Sparta is aimed for people who want to maintain neutral aesthetics in their home cinema, but require a proper acoustic solution. In line with this concept, Artnovion also created a visually identical solution that allows for speaker integration.
This product is the result of extensive research and development into acoustically transparent fabrics, to create a speaker cover solution with minimal interference to the speakers' response pattern.

Features
