Tejo - Absorber

Tejo is made from recycled PET and carefully wrapped in a recycled PET fabric. The moulding process takes inspiration from traditional furniture making techniques, allowing us to carefully fashion the product without the use of any additional chemical adhesives or high temperature presses - proudly making a ecologically sustainable product, made entirely from recycled waste.

Tejo is inspired from our flagship Douro diffuser, creating acoustic performance in the minimum thickness possible. Tejo creates district air cavities behind the panel, boosting the performance of the sleek acoustic core.

Tejo is a high frequency absorber, designed for spaces where speech intelligibility and noise control are critical factors - from offices and conference rooms, to schools, hotels or restaurants.
Tejo is available in a range of select fabrics and finishes, and is easily adhered to any surface.

The most common ocean pollution - PET plastic bottles - can be recycled into a hard-wiring flexible acoustic metamaterial with exceptional performance.

Class 1 product according OEKO-TEX@ Standard 100.

Features

Type:
Absorber

Absorption range:
250Hz to 5000 Hz

Acoustic Class:
C | (αw) = 0,75

Purpose

- Noise Control
- RT reduction
- Improving speech intelligibility

Recommended for

- Office
- Meeting room
- Conference room
- Open workspace
- Coffee shop
- Restaurant

Performance

Absorption coefficient

Recycled PET absorption - Class 1 product according to the OEKO-TEX@ Standard 100.
