

Quietstone - Absorber

Quietstone is a robust absorber, crafted from recycled glass, which not only underscores its durability but also its dedication to sustainability. This remarkable material offers a range of key features, including high sound absorption, non-combustible properties, and impressive weather resistance.

The installation process is simplified through on-site panel cutting and mechanical fixing, ensuring a hassle-free experience. Quietstone is suitable for both indoor and outdoor applications, making it an adaptable solution to enhance the acoustic and aesthetic qualities of any space.

Features

Type:
Absorber

Absorption Range:
250 Hz to 5000 Hz

Acoustic Class:
A | $(\alpha_w) = 0,9$

Fire Rate:
Non combustible

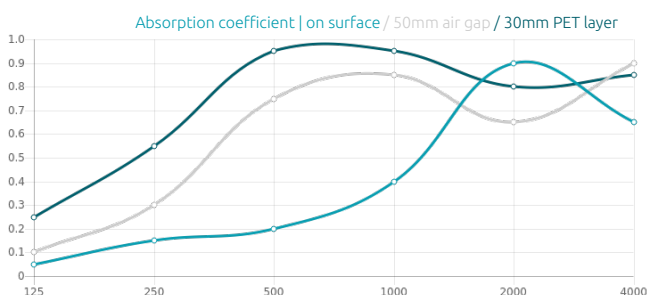

Purpose

- RT reduction
- Noise Barriers, tunnels and industrial
- Weather and fire proof cladding

Recommended for

- Industrial noise control
- Outdoor spaces
- Sanitary or harsh environments
- High humidity environments
- Swimming pools
- Sports Halls
- Spas

Performance

This product is available in the following Fire Rate:

FR | Fire Rated: Non Combustible

85476: Part 6: 1989 - Class 1

85476: Part 7: 1997 - Class 0

PRODUCT COMPOSITION:

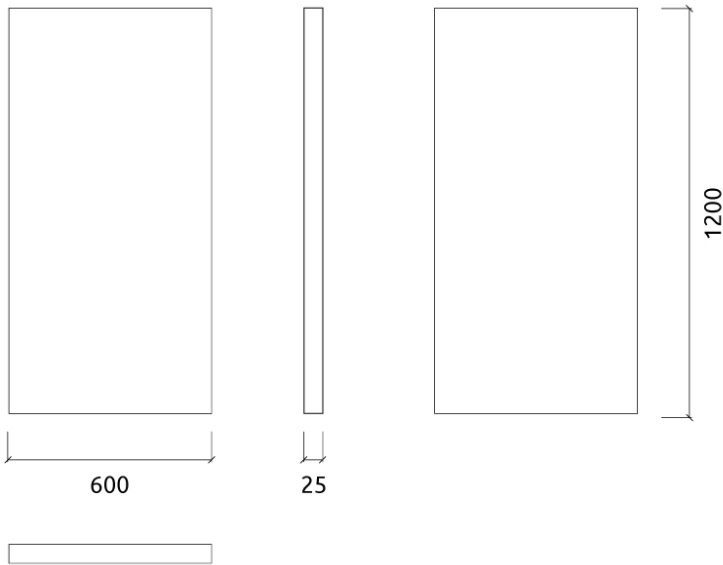

Quietstone | Recycled Glass (FR)

- 94% Recycled Glass

Dimensions:

Quietstone | 1200x600x25mm

Easily cut on site
