

Luxor Print - Grand

Luxor Print is defined by Artnovion's proprietary aluminium frame with a 45-degree profile. Luxor Print combines an inclined aluminium structure with a recycled PET absorber core and a printed fabric front. The angled profile remains hidden beneath the fabric, creating a clean and uniform appearance.

Designed for both wall and ceiling applications, Luxor Print provides effective acoustic control in a wide range of spaces. Its aluminium structure ensures easy installation, resistance to temperature and humidity variations, and allows for large panel formats while maintaining consistent acoustic performance.

Features

Type:
Absorber

Absorption Range:
315 Hz to 5000 Hz

Acoustic Class:
B | $(\alpha_w) = 0.8$

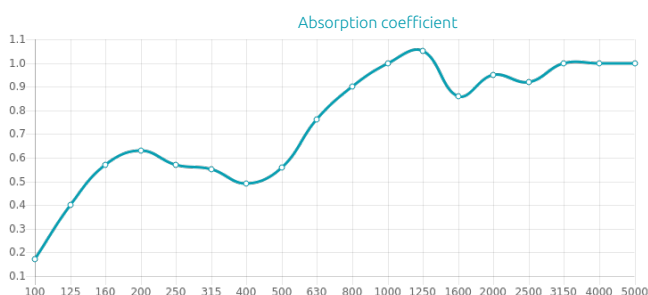

Purpose

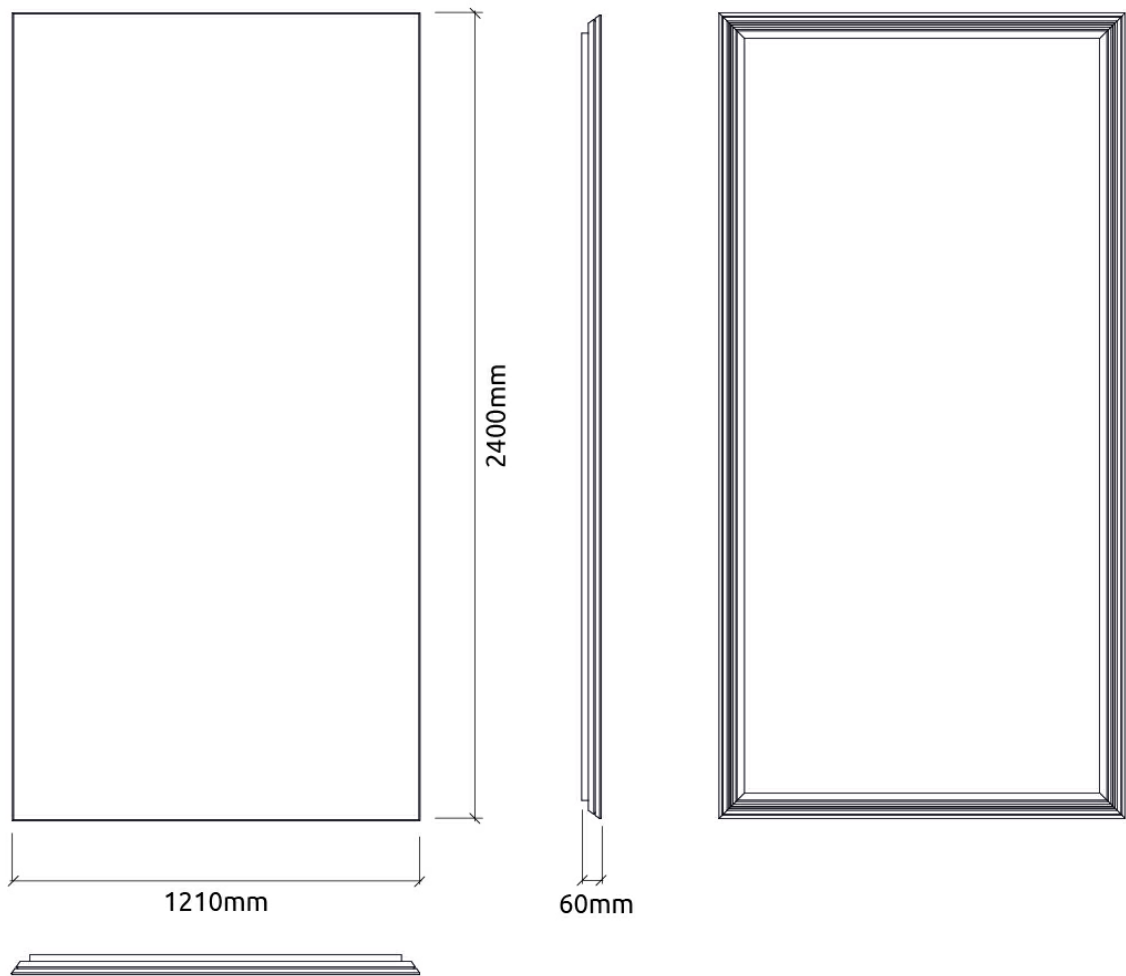

- RT reduction
- Flutter echo control
- Reducing excessive reverberation
- Improving speech intelligibility

Recommended for

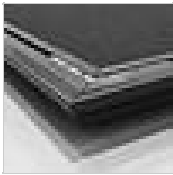

- Intensive Care Units
- Emergency Rooms
- Medical Private Rooms
- Medical Consultation Offices
- Medical Wards
- Medical Ward Corridors
- Waiting Rooms
- Receptions
