

Vector Flow

Inspired by the timeless design of Vector, this new collaboration between Jan Morel and Artnovion introduces a hybrid acoustic panel with a strong visual identity. The parallel slats diffuse incoming sound waves, creating a uniform reflection pattern and more homogeneous sound fields. Vector Flow combines two different acoustic materials, high-density calibrated-cell acoustic foam and recycled PET, increasing the absorption range while delivering greater performance within a more compact solution.

Made from a selection of wood finishes, including premium lacquered options, and available with a range of secondary interior colours, Vector Flow brings a bold, distinctive character to the spaces where it is used.

Features

Type:
Hybrid Absorber-Diffuser

Absorption Range:
400 Hz to 5000 Hz

Acoustic Class:
C | (α_w): 0,65

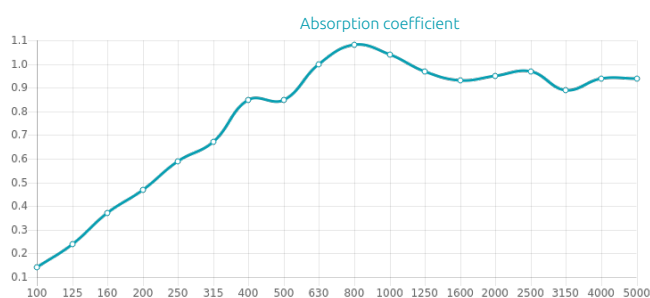

Purpose

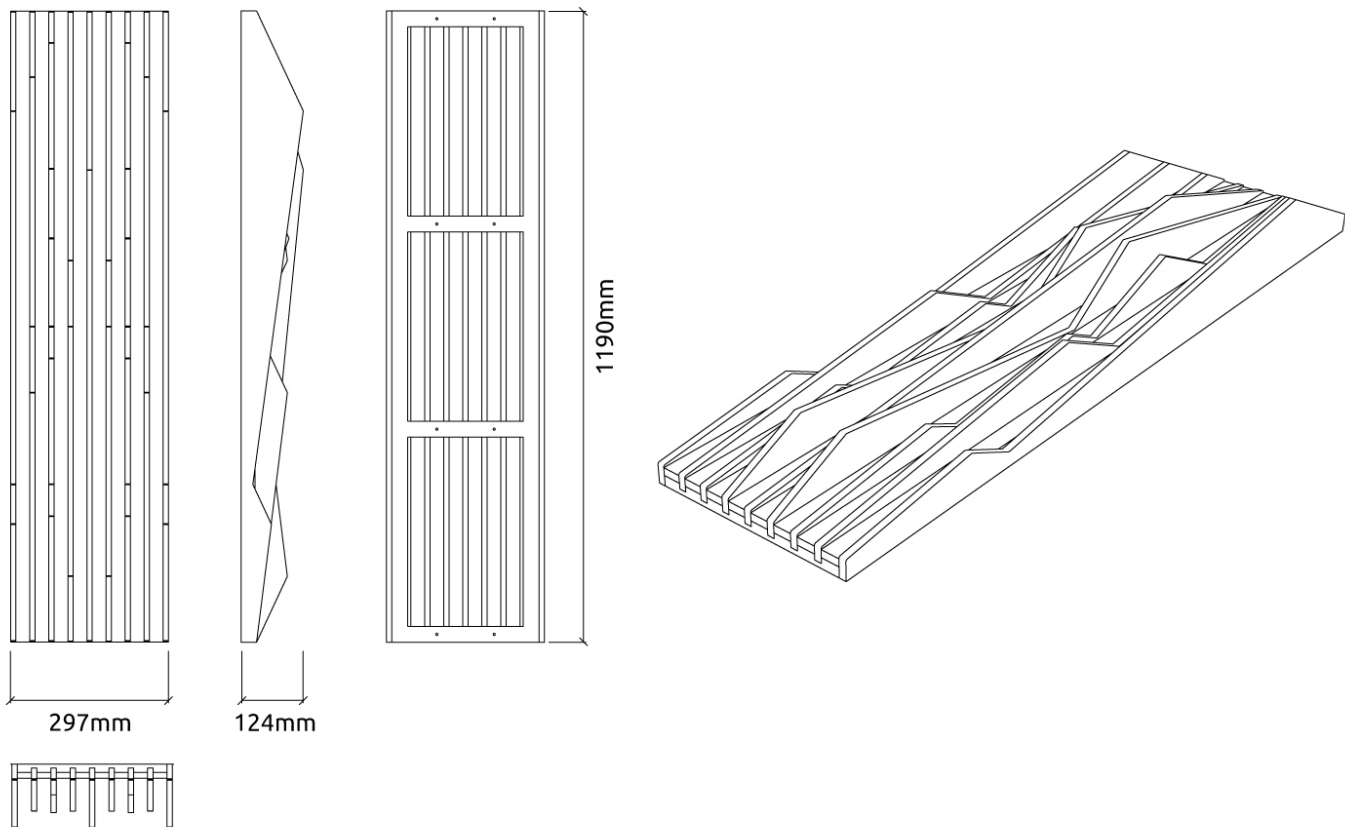

- Sweet spot sound field distribution
- RT reduction

Recommended for

- Control Room
- Recording Room
- Home Studio
- Broadcast Studio
- Vocal Booth
- Drum Room
