TUA Mobile Wall
Mobile Kits

TUA Mobile Wall is composed by 1 Mobile Wall, with 3 TUA Absorber Panels

Tua Mobile Wall was designed to offer a premium fabric finish that complements the room's design while maintaining excellent performance. Inspired by our patented FixArt Tube fixing system, we developed the Tua Mobile Wall for musicians and sound mixers. The demand for portable sound treatment is constantly growing, whether for a mobile studio, treating a single doorway, or configuring rooms and auditoriums. The Tua Mobile Wall meets this need perfectly. Comprising 3 Tua absorber panels, it offers a lightweight, versatile, and high-performance solution at an affordable cost. (Patent Pending)
