Agad Mobile Wall
Mobile Kits

Agad Mobile Wall is composed by 2 mobile walls, each one with 3 Agad Absorber Panels

Based on our patented FixArt Tube fixing system, we developed the Agad Mobile Wall for the music industry and broadcast market, catering to everyone from musicians to sound mixers. The need for portable sound treatment is ever-increasing, whether for a mobile studio, treating a single doorway, or configuring rooms and auditoriums. The Agad Mobile Wall meets these needs perfectly. Equipped with 3 Agad absorber panels, the mobile wall provides a cost-effective, lightweight, and versatile high-performance solution. (Patent Pending)
