# Komodo CS
Cinema Series

Komodo CS is an innovative wooden absorber panel with an acoustically optimised perforation pattern with a discreet modular installation system. This modular system uses two different wooden cores: an Absorber and Bass Trap options. Each provides distinct functionality while keeping the same design.

Absorbers remove energy from incoming sound waves, reducing reflections and overall reverberation time. Bass Traps reduce low frequency room modes, diminishing the effect of standing waves. Discover our Cinema Series, a flexible range that can be adapted to a wide variety of environments and is tailored into beautiful, timeless, multifunctional designs.

## Recomended For

- Home Cinemas
- Media Rooms

## Purpose

- RT reduction
- Flutter echo control
- Reducing excessive reverberation
- Improving speech intelligibility

# Finishes

(FG - NW) Natural Wood Finishes

**(W08) Wenge Natura**

**(W09) Black Walnut Natura**

**(W11) Okoumé Natura**

**(W12) Ash Natura**

**(W13) Oak Natura**

**(W17) Black Ash**

(FG - LW) Lacquered Wood Finishes

**(L06) Noir Vintage**

**(L07) Graphite Black**

**(L09) Classic Gold**

**(L10) Bronze**

**(L20) Grey Aluminium**

**(L21) Gloss White**

**(L22) Jet Black**

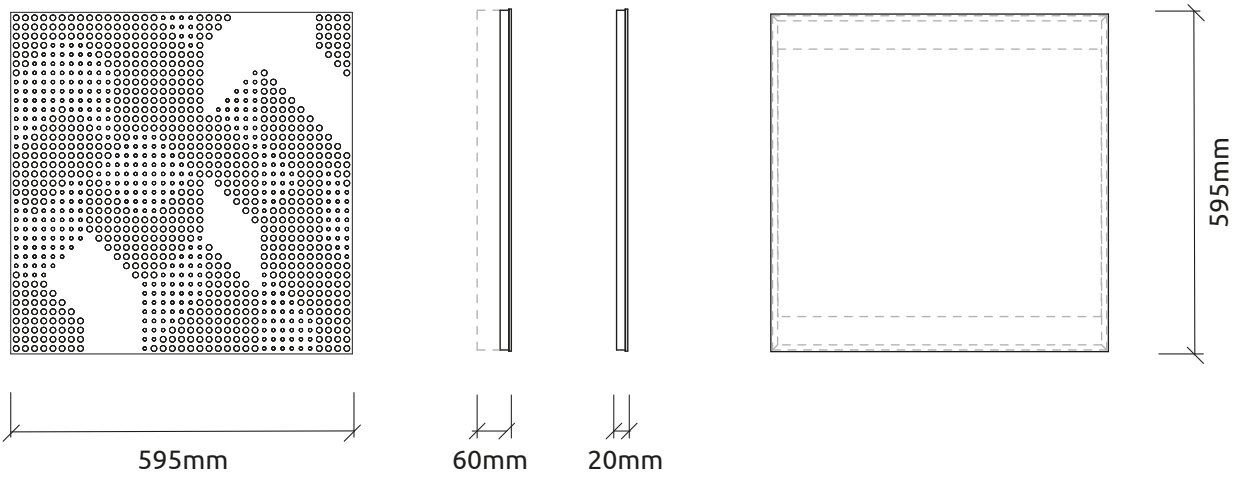

**Custom RAL**

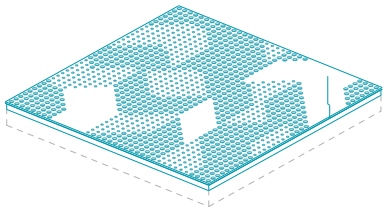

# Dimensions

Komodo CS | 595x595x60mm

Front panel (20mm) + Core (40mm) = 60mm

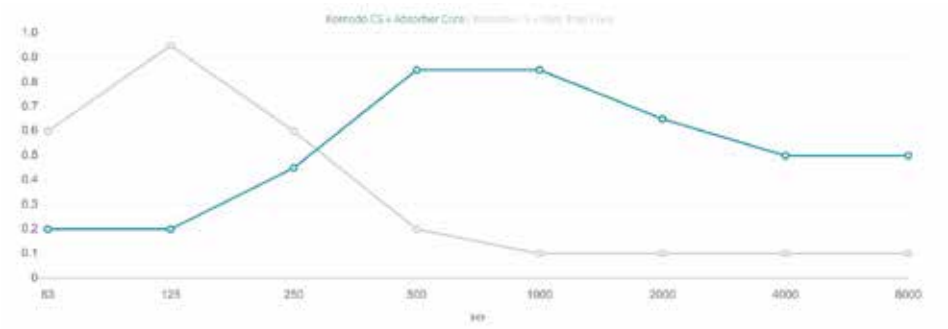

# Fixing Systems

Integrated Fixing Systems

# Performance

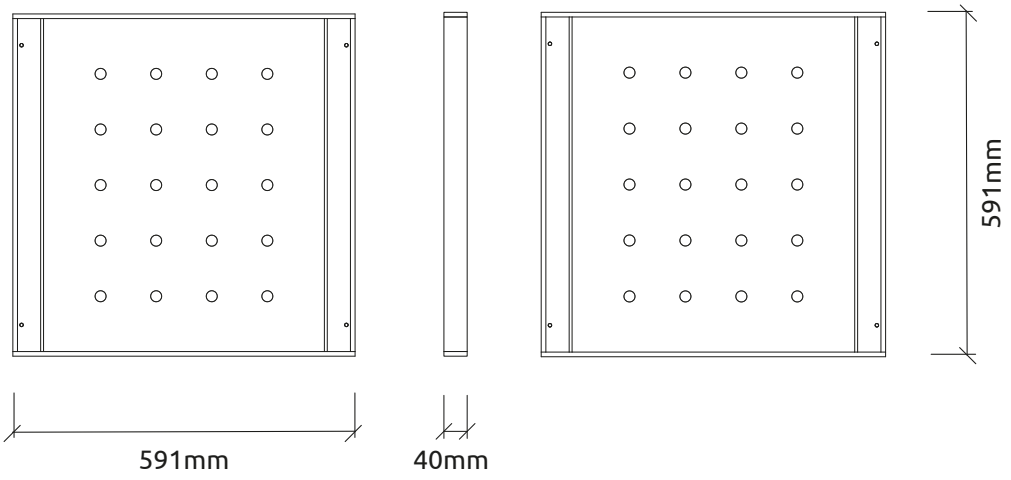

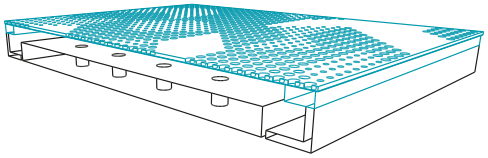

Komodo CS + Absorber Core
Absorption Range: 500Hz to 8000Hz
Acoustic Class: C | (aw) = 0,65

Komodo CS + Bass Trap Core
Absorption Range: 100Hz to 125Hz

# Compatible Cores

## **Absorber Core** | 591x591x40mm

## **Bass Trap Core** | 591x591x40mm
