

# Metal Side Cover Kit Fixing System

At Artnovion, we understand the significance of product aesthetics. Our Metal Side cover not only ensures full coverage of the FixArt Tube systems for a smoother look but also matches your room's style effortlessly.

This accessory is used to conceal FixArt Tube systems, providing the installation with a sleeker appearance.

The Metal Side Cover Kit is a metal frame that screws directly into the wall. It is available in two sizes: 595mm and 1190mm.

The Metal Side Cover Kit is sold in black and white lacquered finishes.
